SPECIFICATIONS

2022-2023 Sludge Thickening Polymers Chemical Supply Contract - DCRSD Contract #22-01

Delaware County, Ohio

GENERAL

This contract is an agreement to furnish various emulsion polymers for wastewater sludge thickening at stated unit prices when requested by the Owner, defined as the Delaware County Board of Commissioners or the Delaware County Regional Sewer District (collectively known as “County”).

The period of the contract shall be two (2) years, January 1, 2022 through December 31, 2023, with the option to extend for up to two (2) additional one (1) years terms if mutually agreeable by both the County and Contractor.

Bidder agrees to furnish any chemical(s) ordered under this contract promptly as requested by the Owner. Failure to furnish such chemical(s) within the time and manner specified by the Owner shall be documented by the County and may be cause to deny any future contract award under Lowest and Best bidder consideration.

The County reserves the right to award any or all or parts of this bid and make a non-exclusive award. Conditional bids with restrictions may be accepted or rejected at the discretion of the County.

NON EXCLUSIVE AWARD

Due to the nature of the goods and services required in addition to not knowing in advance when materials will be needed, the County reserves the right to accept all responsive bids submitted on or before the specified bid opening date and make an award to all responsive bidders.

As needs arise, the County will review a tabulated list of the multiple awarded vendors who submitted a bid, and select what vendor best meets its requirements and place an order with that awarded vendor. An award does not guarantee that your company will receive a purchase order during the term of this contract.

CHEMICAL SPECIFICATIONS

Table 1 lists specifications for two emulsion polymers acceptable by the County. Bidders wishing to perform jar testing of alternate products that deviate from these specifications may collect sludge samples per the instructions in this specification. Bidders shall clearly identify on the bid blank any deviations from the specifications in Table 1 and attach detailed manufacturer’s specifications. The County makes no implication that deviations will be accepted.

Table 1. Polymer Chemical Specifications

	Polymer A	Polymer B
MOLECULAR WEIGHT (uL VISCOSITY)	4.3-5.3	1.5-2.4
CATIONIC CHARGE (MOLE %)	60%	50%
ACTIVE POLYMER SOLIDS	41%	40%

The material shall also be free of any foreign element or compounds that may negatively affect the treatment plant operations or contaminate residuals for use in landfills or land application.

JAR TESTING FOR ALTERNATE PRODUCTS

Bidders wishing to perform jar tests of products that deviate from the specifications in Table 1 are responsible for scheduling an appointment prior to the bid opening to collect the necessary sludge samples. Appointments may be scheduled by contacting the following facility staff:

- Cory Smith, Operations Superintendent, Alum Creek Water Reclamation Facility, (740) 833-2230, csmith@co.delaware.oh.us, 7767 Walker Wood Blvd., Lewis Center, OH 43035
- Marshall Yarnell, Operations Manager, Olentangy Environmental Control Center, (740) 833-2228 x5121, myarnell@co.delaware.oh.us, 10333 Olentangy River Road, Powell, OH 43065
- Jeff Hall, Operations Superintendent, Lower Scioto Water Reclamation Facility, (740) 833-2226 x5102, jhall@co.delaware.oh.us, 6579 Moore Road, Delaware, OH 43015

Currently, the County dewater biosolids from the Alum Creek Water Reclamation Facility (ACWRF), Olentangy Environmental Control Center (OECC), and the Lower Scioto Water Reclamation Facility (LSWRF). The ACWRF dewater using a belt filter press, whereas the OECC and LSWRF use centrifuges. **Table 2** summarizes the sludge characteristics and performance requirements at these three facilities.

QUANTITIES

Table 3 lists the approximate quantities of polymer used at each facility in 2020. The actual amount needed over the duration of the contract will vary. The Owner will not guarantee a minimum or maximum amount, nor shall the Owner be obligated to purchase a minimum amount or be limited to purchasing a maximum amount. The bid price shall apply to the actual amount of polymer emulsions that the Owner orders.

The County shall have the right to reject any product, which does not conform to such guarantee, and return same, at Contractor’s expense, for correction or replacement.

REGULATORY REQUIREMENTS

Contractor shall comply with requirements of all local, state, and federal regulating agencies for the Work as described in the contract documents.

REQUIRED EQUIPMENT

Contractor shall provide all necessary equipment and appurtenances to off load materials onto the County’s dock or fork lift. The cost of such shall be included in the quoted bid price. By submitting a bid, the Contractor acknowledges that he/she has made himself/herself familiar with the conditions in which the material can be off loaded and the equipment that is needed to perform such actions as required in the specifications.

DELIVERY OF MATERIAL, REMOVAL OF EMPTY TOTES

The material shall be delivered by trucks with the ability to deliver a minimum amount of 2 totes of 250 gallons (minimum volume each) to the ACWRF, OECC, and LSWRF. Totes shall not weigh more than 2500 lbs per tote and shall fit on the County’s existing storage rack(s). The Contractor shall be responsible for the safe, clean delivery of the material onto the County’s dock or fork lift.

The Contractor shall deliver the requested amount of material within two (2) weeks of notice by the County. Time and date of the delivery will be scheduled by and at the convenience of the County.

The Contractor shall also remove all empty totes from County facilities. Removal shall be performed as requested by the County and be completed within two weeks of the request. Removal of empty containers and packaging/equipment shall be included in the cost of the various bid items per bid.

SAFETY

In an emergency affecting the safety of persons or property, the successful bidder shall act with reasonable care and discretion, to prevent any threatened damage, injury, or loss. Contractor shall provide all necessary safety devices and equipment for unloading materials.

The Contractor shall be responsible for the safe, clean delivery of the material onto the County's dock or fork lift. The Contractor shall be responsible for any damage to the County's storage tanks and or feed systems that are directly attributable to product quality or improper delivery practices. The Contractor shall provide prompt clean-up of any spills made during delivery at no additional cost to the County. The Contractor shall be responsible for any damage incurred to adjoining areas and or properties due to spills or improper delivery practices. The Contractor will be responsible to report, as required, all spills and pay for all penalties and/or fines that are attributable to Contractor's negligence. Contractor shall provide safety data sheets at the time of the bid. The material contains hazardous substances as defined by the USEPA CERCLA lists and all regulatory requirements shall be followed for the delivery of the material.

The Contractor shall comply with all USDOT placard requirements for the delivery of the material.

Handling procedures for the material shall require protective gloves, eye protection, and any additional personal protective equipment as specified in the Safety Data Sheets.

PRICING

The Bidder shall provide pricing for one or more of the bid items as detailed in the Bid Blank. Pricing for the polymer emulsions shall be per pound. For alternate products that deviate from the specifications in Table 1, the Bidder shall also provide the dosage at which it will meet the performance requirements in Table 2.

If any shipment of polymer emulsion contains a higher concentration than the minimum concentration listed in these specifications, the Owner shall not be required to pay a greater amount than the bid price accepted by the Owner.

The Contractor shall indemnify and hold harmless the County and its Officers, agents, employees, or any other interested party from any and all liability, including costs and expenses, associated with any product license or patent infringement resulting from the supply and application of the supplier's material.

All charges, including freight, fuel surcharges, delivery, labor, materials, equipment, removal/hauling of empty totes, and the services as provided herein shall be included in the bid price.

Pricing shall remain firm for the period of the contract. Manufacturers' price increases or other increases in the cost of doing business may not be passed on to the County. Nor may the Contractor withdraw or cancel the contract or any part of the contract for these reasons.

PERFORMANCE EVALUATION

After the bids are opened, responsive bidders may be required to demonstrate that the polymer can meet the performance requirements at each plant through a test trial. Within ten (10) days after the County notifies the Bidder, the Bidder shall deliver 250 gallons of the prospective bidder's best-determined polymer(s) for each facility's biosolids. The test trial will be conducted at the expense of the County. The County will purchase the polymer(s) for the test trial at the bid price. Samples will be analyzed by County personnel and evaluated based on the cost per dry ton of sludge dewatered and acceptability to plant operations, including but not limited to:

- percent total solids on the input and output
- gallons per minute throughput.
- polymer usage per dry ton biosolids throughput
- belt speed/rpm
- solids capture.

Results of the performance testing will be used in the overall evaluation of the polymers to determine the lowest and best bid.

Change Order Instructions

A. GENERAL INFORMATION

This document was developed to provide a uniform format for handling contract changes that affect Contract Price or Contract Times. Changes that have been initiated by a Work Change Directive must be incorporated into a subsequent Change Order if they affect Price or Times.

Changes that affect Contract Price or Contract Times should be promptly covered by a Change Order. The practice of accumulating Change Orders to reduce the administrative burden may lead to unnecessary disputes.

If Milestones have been listed in the Agreement, any effect of a Change Order thereon should be addressed.

For supplemental instructions and minor changes not involving a change in the Contract Price or Contract Times, a Field Order should be used.

B. COMPLETING THE CHANGE ORDER FORM

Engineer normally initiates the form, including a description of the changes involved and attachments based upon documents and proposals submitted by Contractor, or requests from Owner, or both.

Once Engineer has completed and signed the form, all copies should be sent to Owner or Contractor for approval, depending on whether the Change Order is a true order to the Contractor or the formalization of a negotiated agreement for a previously performed change. After approval by one contracting party, all copies should be sent to the other party for approval. Engineer should make distribution of executed copies after approval by both parties.

If a change only applies to price or to times, cross out the part of the tabulation that does not apply.

FORM OF BID GUARANTY

KNOW ALL PERSONS BY THESE PRESENT, that we, the undersigned

_____ as Principal at _____

(Address) and _____

as Surety, are hereby held and firmly bound unto the County of Delaware as Obligee in the penal sum of \$1,000.00 as part of the bid submitted by the Principal to the Obligee on (date) _____

to undertake the Project known as: _____

The penal sum, referred to herein, shall be \$1,000.00, incorporating any additive or deductive alternate Bids made by the Principal on the date referred to above to the Obligee, which are accepted by the Obligee. For the payment of the penal sum well and truly to be made, we hereby jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns.

THE CONDITION OF THE ABOVE OBLIGATION IS SUCH, that whereas the above-named Principal has submitted a bid on the above-referred to project;

If the Obligee accepts the bid of the Principal, and the Principal, within ten days after the awarding of the contract, enters into a proper contract in accordance with the bid, plans, details, specifications and bills of material, which said contract is made a part of this bond the same as though set forth herein, then this obligation shall be void; otherwise the same shall remain in full force and effect; it being expressly understood and agreed that the liability of the Surety for any and all claims hereunder shall in no event exceed the penal amount of this obligation as herein stated.

THE SAID Surety hereby stipulates and agrees that no modifications, omissions or additions, in or to the terms of said contract or in or to the plans and specifications, therefore, shall in any way affect the obligations of said Surety on its bond, and it does hereby waive notice of any such modifications, omissions or additions to the terms of the contract or to the work or to the specifications.
